508 DIY GRATED DRAINAGE CHANNEL KIT

The details that make the difference.....

508 DRAINAGE CHANNEL

SABdrain 508 is a durable, lightweight and easily installed drainage channel developed for the DIY market, rated to withstand a 1.5 tonne wheel loading. The galvanised slotted pressed metal grate utilizes a click-clack fixing system allowing quick and easy access to the drainage system.

Available in single or kit box (3 channels and 2 end caps)
