

GREEN LIGHT 15-0-0 + 6% Fe

PROFESSIONAL TURF FERTILISER FOR RAPID TURF COLOUR

Green Light is a professional foliar fertiliser designed specifically to encourage a deep green colour and growth response in turf. The inclusion of iron (Fe) in chelated form helps get the nutrient into the plant quickly, resulting in rapid and lasting greening effect.

Based on the same formulation as Australia's most widely used nitrogen (N) and iron (Fe) fertiliser, Green Light, in one form or another, is used regularly on some of Australia's most prominent golf courses and sporting facilities.

While Green Light is a solid all purpose fertiliser, typical uses for this product include tournament preparation in golf courses, and prior to televised games in sports facilities. On the home lawn, Green Light is ideal for use before a BBQ or any time when you want to get your patch looking its best.

GUARANTEED MINIMUM ANALYSIS

Nitrogen (N) as Stabilised Urea	15%
Iron (Fe) Total	6%
Iron (Fe) as Sulphate	4%
Iron (Fe) as EDTA Chelate	2%
Manganese (Mn) as Sulphate	2%
