

# LAUNCH+ 8-10-5 + KELP

## PROFESSIONAL TURF FERTILISER FOR STRONG ROOT GROWTH

Launch+ is a professional grade foliar fertiliser designed to be applied to the foliage (or leaf) of the turf, a method of application which is often deemed the most efficient avoiding nutrient losses in the soil.

While designed for use throughout the year, Launch+ is best suited to use during times when turf root development is required.

The high amount of phosphorus (P), plant available zinc (Zn) and inclusion of kelp concentrate, all act to stimulate root growth. Ideal situations of use for Launch+ include during seed establishment, following renovation or scarrifying, or when recovery is required on injured or stressed turf.

### GUARANTEED MINIMUM ANALYSIS

<b>Nitrogen (N)</b> as Urea	8%
<b>Phosphorus (P)</b> as Phosphite	10%
<b>Potassium (K)</b> as Carbonate	5%
Zinc (Zn) as Nitrate	1%
<b>Kelp Concentrate</b>	5%
