

# MOIST

## MULTI-PURPOSE PROFESSIONAL-GRADE SOIL WETTING AGENT

Growing a lush lawn in the driest inhabited continent on Earth, while using water responsibly can be challenging. That's why professional turf managers will rely on high quality wetting agent products like Lawnporn Moist to get them through spring and summer.

While its name sounds a little silly, Lawnporn Moist is a serious wetting agent. Made of a 100% blend of surfactant compounds, Moist is specifically balanced to provide multi-action wetting agent activity in the soil; improving water penetration, moisture retention and distribution within the soil, keeping precious water at the root zone for longer.

The result is not only a more resilient lawn through a long, hot summer, but also a lawn that grows more evenly due to the elimination of wet and dry spots that cause varying growth rates.
