

SOLVENTS & THINNERS

Diggers Mineral Turpentine

DESCRIPTION

Diggers Mineral Turpentine is a solvent commonly used for thinning oil-based paints and cleaning paint brushes and equipment after painting.

TYPICAL USES

- Thinning oil-based paint
- Thinning **Diggers Linseed Oil** (Raw and Pale Boiled)
- Removing wax and polish
- Cleaning paint brushes and equipment

FEATURES

- Low-aromatic, white-spirit hydrocarbon solvent
- Cost-effective

APPLICATION

Thinning Oil-Based Paint

- To achieve optimum results always follow paint manufacturer's directions when thinning paint.

Thinning Linseed Oil (Raw and Pale Boiled)

- Mix **Diggers Linseed Oil** 50:50 with **Diggers Mineral Turpentine** for increased timber protection.

Removing Waxes and Polishes

- Always test on a small area first. Use direct from the bottle. Saturate a lint free cloth with **Diggers Mineral Turpentine** and wipe in one direction to remove containments from surface. Use a clean part of the cloth for each wipe. For vertical surfaces start at the top and work downwards.

Cleaning Paint Brushes

- Place brush in jar with **Diggers Mineral Turpentine**, squeeze out paint and rinse with strong soapy water.

*HINT: When cutting glass, dip the cutter wheel in **Diggers Mineral Turpentine** prior to cutting – this lubricates the cutting wheel and produces a cleaner cut.*

SAFETY

Wear suitable protective clothing, gloves and eye / face protection when using this product.

Typical Characteristics

Appearancecolourless liquid
Specific Gravity..... 0.78–0.82
Flash Point.....31°C
Boiling Point..... 148–200°C
Auto Ignition Point..... ~300°C
